Hard Times Predicted if Hereinad Should Winter the Presidency.

New York, No. 11.—(Specia. The following is a Specianen of some of the dispatches which find their was into the republican fournals of this city: 3, 7. M. Byers, a healing minantifactorer of Pittaburg, says: "A number of heavy orders are held by the times in this city for iron, to be delivered if Haine is elected president. If it is found he is detented, these orders will no doubt be countermoded. I know of one mail toll that has a contract for 55kk kegs, this 1900 kegs have been delivered, and the others are being held by onlive of the consignee, who has political held in the firm to deliver the remainder if Blaine is elected. If it should turn out that the vicinal selected this order will, in all probability, he withdrawn. Consumers as well as manufacturers believe that the future of the industries of this nation depends upon the party that grans political control of the country. Some of these orders were placed recently, and others some time ago. The pour basers believe if Blaine is elected, and the republicans retain their management of the ablast of the government, the country will enter upon a new ern of prosperity. I fred positive that whon it is declared that Blaine is president elect three will be a southing, strengthening influence exerted upon the iron trade. Then, in time, the whole bashiess interests of the country will brighten up. For instance, in the iron industry there is no overproduction. Money is cheap, and all that is needed to make a good demand is confidence. Just look at the result of a republican president, a republican sender, and the sender and every demand is confidence. Just look at the result of a republican president, a republican sender, and a large-ly reduced democratic representation in the horse, and the tariff safe, on the other hand," continued Mr. Byers, "if it should be declared that checkand is elected president, it is not would have a democratic president, a republican sender, and a large-

controversy which is likely to arise over the disputed returns. The large democratic majority in the board of aldermen will be used to force speedy action, and a large proportion of the democratic judges may be relied upon to issue orders vacating any mandamus granted by republican judges. It is more than likely one side or the other will get its end by superior tends for the other will get its end by superior tends for the other will get its end by superior tends for the other will get its end by superior tends for the other will get its end by superior tends for the other will get its end by superior tends for the other will get its end by superior tends for the other will get its end by superior tends for the other will get its end by superior tends for the other will get its end by superior tends for the other will get its end by superior tends for most serious case is in this city, where it turns upon the character of these lands cannot be the transfer of these lands of the majorite and blank ladies, thrown out by the inspectors. The character of these lands are cleveland or Blaine hallots, but it is believed that the larger miniber, if not all, are clipped that the larger miniber, if not all, are clipped that the larger miniber, if not all, are clipped that the larger miniber, if not all, are clipped that the larger miniber, if not all, are clipped that the larger miniber, if not all, are clipped that the larger miniber, if we have superior the other contact for the other clears.

An ine instead particularly with the latent in the Union. It has meanly, if not quite, one million mid a quarter of voters. A change of threa or four votes in each bit is enough to wipe out an ordinary majority on one side and place for the other. An offensive management of a state convention or of a state campaign, by the iniders of either parts will preduce that gesuit. It has done it republican nor the despectator party has once elected all its candidates on the state ticket, except when all the factions or elements in the party has representatives on the ticket. When both parties have recognited all the factions in the make-up of the state_ticket the same year, the result has lummed-on issues of a national character. On one occasion, at least, a failure to recognize these facts lost the state trol the whole imembership of either party, much less establish itself permanently in the state. The efforthes been tried time and thus again, but in every instance it has failed. The to the republicans when they lead the popular side of the issue. I musual majorities have invariable encouraged the Beders of Lottons in the successful party to use their power, but their efforts to force to the rear shows connected with the other faction have always recoiled acen then and defeated their parts. Horses Greeley twice felt the power of the result of the faction which he tried to ride over, and other leaders on both sides, have had the same

In 1855 the regulation party married the state by what was considered in extraordinary par-locity. It was called a tidal wave, X large is inher of counties were revolutionized 'politi cally, and the democrats were so completely test. The rejublicans were aided by the autidavery excitement over oventsiai Kulisas. But in making up the state ticket, tecognized all the elements in the new party. Early further was given representatives and none was ignored. The repull Beauts believed Bat this unprecedented majority of \$1,000 had come to stay, and at the smale convolution the following year the faction of the party ed by ignored the element of the party which had fol owed the lead of Weed and Seward and, atthough their ticket was composed of popular and able men, the repuldant majority of the democratic ticket was elected by from 18,000 to 20,000 majority. This was the result of Mr reeley's first attempt to bre kithd power of feed as a party leader. The democraps, on the other hand, under the advice of ; wan Riel moud and Peter (lagger, recognized both the "hards" and the "sof s," as the two factions of the parts were then called, in making up their ticket, Greeley and his followers undertook to establish a preferred class, and were defeated, with the exam recognized all factions and college the campaign united audovou.

republicans remembered it and profited by i and were successful in 1858. The democratic was recognized as the ablest of the two ticked was recognized as the ablest of the two-but its fate was settled by the ignoring of one of the factions of the party. In 1804, and again in 1861, the republican leaders reg omized all the elements of the party giving the idensectas who bud joined the party in 1850 and those who came into it at the purity set of the place on the tickets, and were a recessful, carrythan 100,000 the following year. Then they thought they were strong enough to place faction above party, and at the convention of 1862 the counsels of Thurlow Weed were ignored. The Sixeley faction nominated a tribut exclusively of their own members, and exclided the Seward-Weed white. The demograts mitted in making an their ticket, ignoring no clement in their party and elected their centire state ticket by were factor inspectives the election.

Mr. Weed endeavored to rally his flends and save the republican ticket, but its appeals were met with the reply that they did not progese to help establish the tireche faction as the prefer-red diase for party hones. It is so it that the surplus in the national Treasmy is too large, and that to reduce it the daties on import; ought to be outdown. Why, If on, sho did not the duty on sugar be removed buring the fiscally ear ended Jame 30, 1884, the teral value of sugar and molasses, imported into Le Unite I Statesiexceeded on - bundred million holiars. Duty paid on the same was nearly fifty millions. This is the largest single item of the government's resume. If the surplus revenue is too large, cut off the sugar duty and give the

d a few sugar planters in Louisianal or a rew sugar pranters in Louisianal Sugar is one of, the great a coessaries of civ-itzed life. At this time it is cheaper in any other country of the world than in our own. It is an article of universal use, and ought to be alwars in chean increasable or that the vicealways at cheap as possible, so that the poor need not be realricted in its use. The government certainly cur well spare the revenue, and when the jouting off of duties begins, sugar ought to a annuig the very first articles made

To us of the Phritic coast it is the more neces resary as a means of breaking up the monopoly of the sugar tra |c now held in San Francisco it rough the Haviaiian treaty. That Irealy gives the mone polists free sugar from Hawai, while sugar from all other countries must pay duty. It enables him to control the entire's gar market of this coast, and to make such prices as he pleases. The entire Hawaiia rerop is upder his p cases. The critic rawant reof is inspecting control, and its excouption from importing sugar handour Pacific ports. This gives him theodule cauted or our sugar market, and the conse-quence is that wille sugar is dearer it our castern states than in any foreign country, it is much dearer here than it is in our eastern states. but if the duty were wholly removed and sugar could come in free from all countries, the moreopoly maintáined at San Francisco through the Hawaiian reaty would be broken down. obtained from any sugar- moducing country on the same terms as those now enjoyed by th

monopolist of san Francisco, who gets the e settled on these simple principles, because Louisian a produces some sugar and insists on saintenance of the protective duty. And here is afforded a test of the sincerity of the speaked tariff reformers of the demonstratic party. They say that the protection of special interests is wrong, and that the recence ought to be cut cown; yet because Louisiana is a cemeeratic state and threatens to vote regainst the party if the sugar duty is removed, this tax on an article of universal use and necessity is maintained, and the largest single source of redundant revenue continues to pour its vast stream into the national treasury, while every family in the land is taxed to maintain a profit for a few sugar planters in a single state.

So fra id the count in New York can possibly go malested. But advantage will be taken by each party of every irregularity and infor-natity in the casting of the tots or the naking up of the returns. Many cases have occurred among the troops at the garrison. In nearly all of the latracks some soldiers or attacked 11 the epidemic continues an order will be issued closing public schools. The eastern and central partipus of the city are the ones most affected. The residences occupied principally by English and American people are in the most excellent santacy condition.

PARES, NOV. 11.—II JS SINTRODUCED.

Mow cholera was introducer,

Paris, Nov. 11.—Ill is supposed that cholera was introduced into Paris by an innait of the freedul asylum, who returned thither recently from a holiday excursion. Porty-four deaths have occurred at the asylum. The mortality has been greater among males than among remales. The asylum has two hundred and lifty innaites. The surrounding district is healthy. Noise fear easily attend patients in the asylum! The chapet has been converted into a cholera ward. Trough are removing the barranche outside of town. DEATH OF A ERPUTY.

I.O. S.O. Nov. 11.—In the commons to day the fruichise bill passed the dirid reading without division. During a debate Goellan expressed regret that the conservatives had be up influenced per siad in their opposition to the frunchie opill. As long as the conservatives indicate their stillitude in regard to Gladstone's proposals, the government wind be unable to introduce a redistribution bill. Gladstone reminded the up osition that Sir Babert Peel's refusal to compromise in the reform question resulted in him liquidon of the lords. THE SITUATION AT FOR CHOW. THE STUATION AT FOO CHOW.

LOND'S, Noy, II.—The Foo Chow correspondent of the Times states that the situation it benefits unchanged. The stoppings of business be still the situation of the lower chastes of Chinese. The tea season is this bet, and consequently loss to Europeans is less than to make so, the thing ese governments demanding more money, and the people are anything to can ribute. Chinese softlers are carriving in large sounders. There are frequent onwilling to con timite. Chinese solitiers we arriving in large numbers. There are frequent disputes between soldiers and the people. The south chamel en rance is blocked, and ships are obliged to pass bin-Pai point, which is completely fortified. The chinese have imported large tombers of torpediess through Hong kong, and are peparing to shik them in the river.

WILL TRY TO FORCE THE BLOCKARS. Sitas and, Nov. 11.—Two Chinese frontlid cuitiers are preparing to leave here for the purpose of alternating to force the French blockade on the island of Formosa. The Chinese have longlid meanly the whole stock of English coal in Shanghai.
